As one of the fastest growing economic players, the logistics industry requires legal advice that is not only industry-specific, but also keeps pace with the ongoing development and growing demands in the areas of

economic efficiency,
sustainability and
digitalisation.

We offer individually tailored solutions for your logistics project. No matter whether:

Production, purchasing, trade,
sales, transactions, outsourcing,
investments, financing, national or international,
land acquisition, leases.

We are at your side as a strong partner.
